Встановлення редактора Visual Studio Code

Переходимо за посиланням:

<https://code.visualstudio.com/>

Завантажуємо і встановлюємо

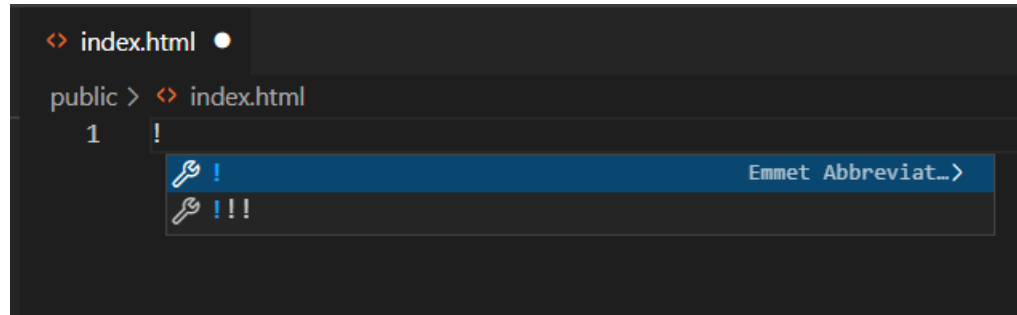

Створюємо веб-сторінку

1. Створюємо файл «index.html» (File => New File)

1. Створюємо шаблон (для цього у VSCode можна скористатися шаблонами, тобто ввести символ знака оклику і натиснути Enter)

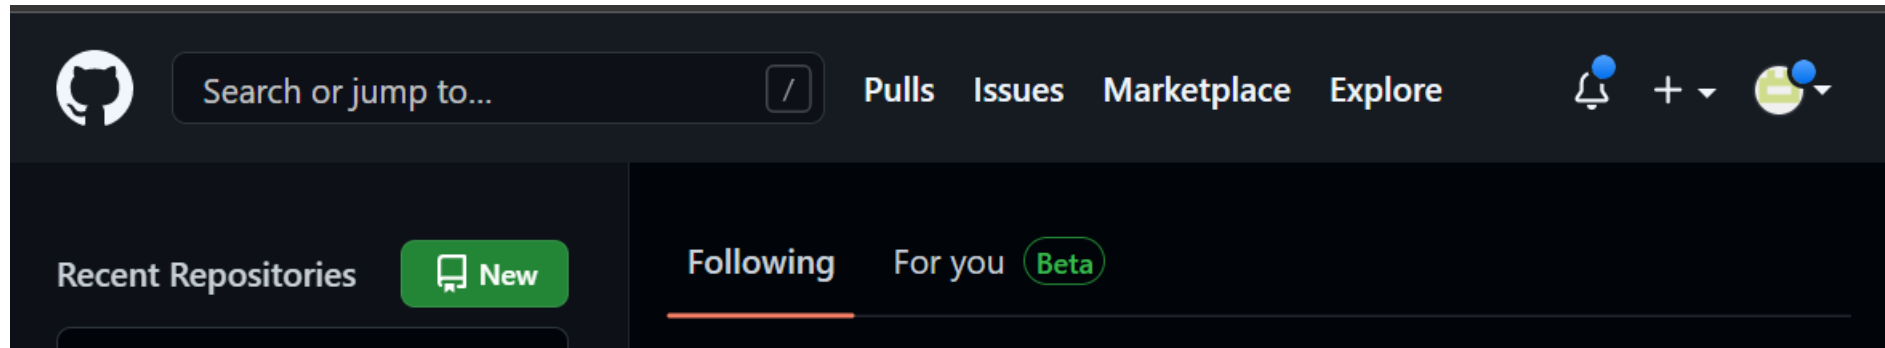

3. Вводимо текст першої сторінки («index.html» - **назва важлива!**)

Для організації хостингу

1. Реєструємось на сайті

<https://github.com/>

<https://docs.github.com/ru/pages/quickstart>

Для організації хостингу

2. Створюємо репозитарій

The screenshot shows the GitHub interface for creating a new repository. The page title is "Create a new repository". Below the title, it says "A repository contains all project files, including the revision history. Already have a project repository? [Import a repository.](#)".

At the top right, there is a navigation bar with a search bar and links for "Pulls", "Issues", "Marketplace", and "Explore". A red arrow labeled "1" points to the "+" icon in the top right corner. A red arrow labeled "2" points to the "New repository" option in the dropdown menu that appears.

In the "Repository name" field, the text "test-site" is entered, and a green checkmark is visible. A red arrow labeled "3. Вводимо якусь назву" points to this field.

The "Owner" field shows "UkrAndy".

Under "Description (optional)", there is a text input field.

Under "Public/Private", the "Public" option is selected. Below it, it says "Anyone on the internet can see this repository. You choose who can commit." The "Private" option is also visible, with the text "You choose who can see and commit to this repository."

Under "Initialize this repository with:", it says "Skip this step if you're importing an existing repository." There are two checkboxes: "Add a README file" (unchecked) and "Add .gitignore" (checked). Below the "Add .gitignore" checkbox, it says "Choose which files not to track from a list of templates. [Learn more.](#)" and ".gitignore template: None".

Under "Choose a license", it says "A license tells others what they can and can't do with your code. [Learn more.](#)" and "License: None".

At the bottom, there is a green button labeled "Create repository". A red arrow labeled "4" points to this button.

At the bottom left, there is a note: "You are creating a public repository in your personal account."

Quick setup — if you've done this kind of thing before

Set up in Desktop or HTTPS SSH `https://github.com/UkrAndy/test-site.git`

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository from the command line

```
echo "# test-site" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/UkrAndy/test-site.git
git push -u origin main
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/UkrAndy/test-site.git
git branch -M main
git push -u origin main
```

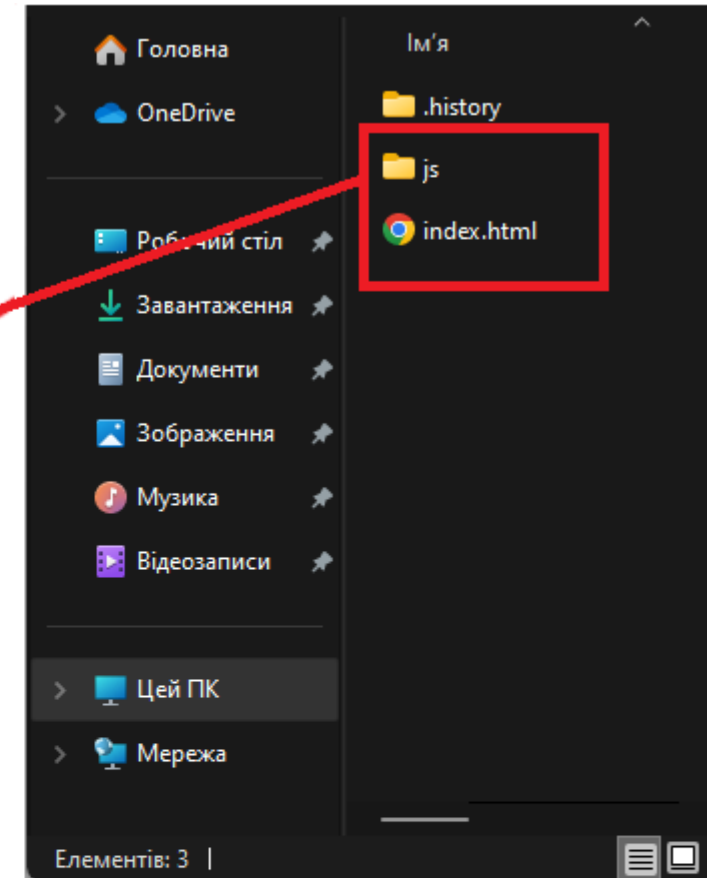

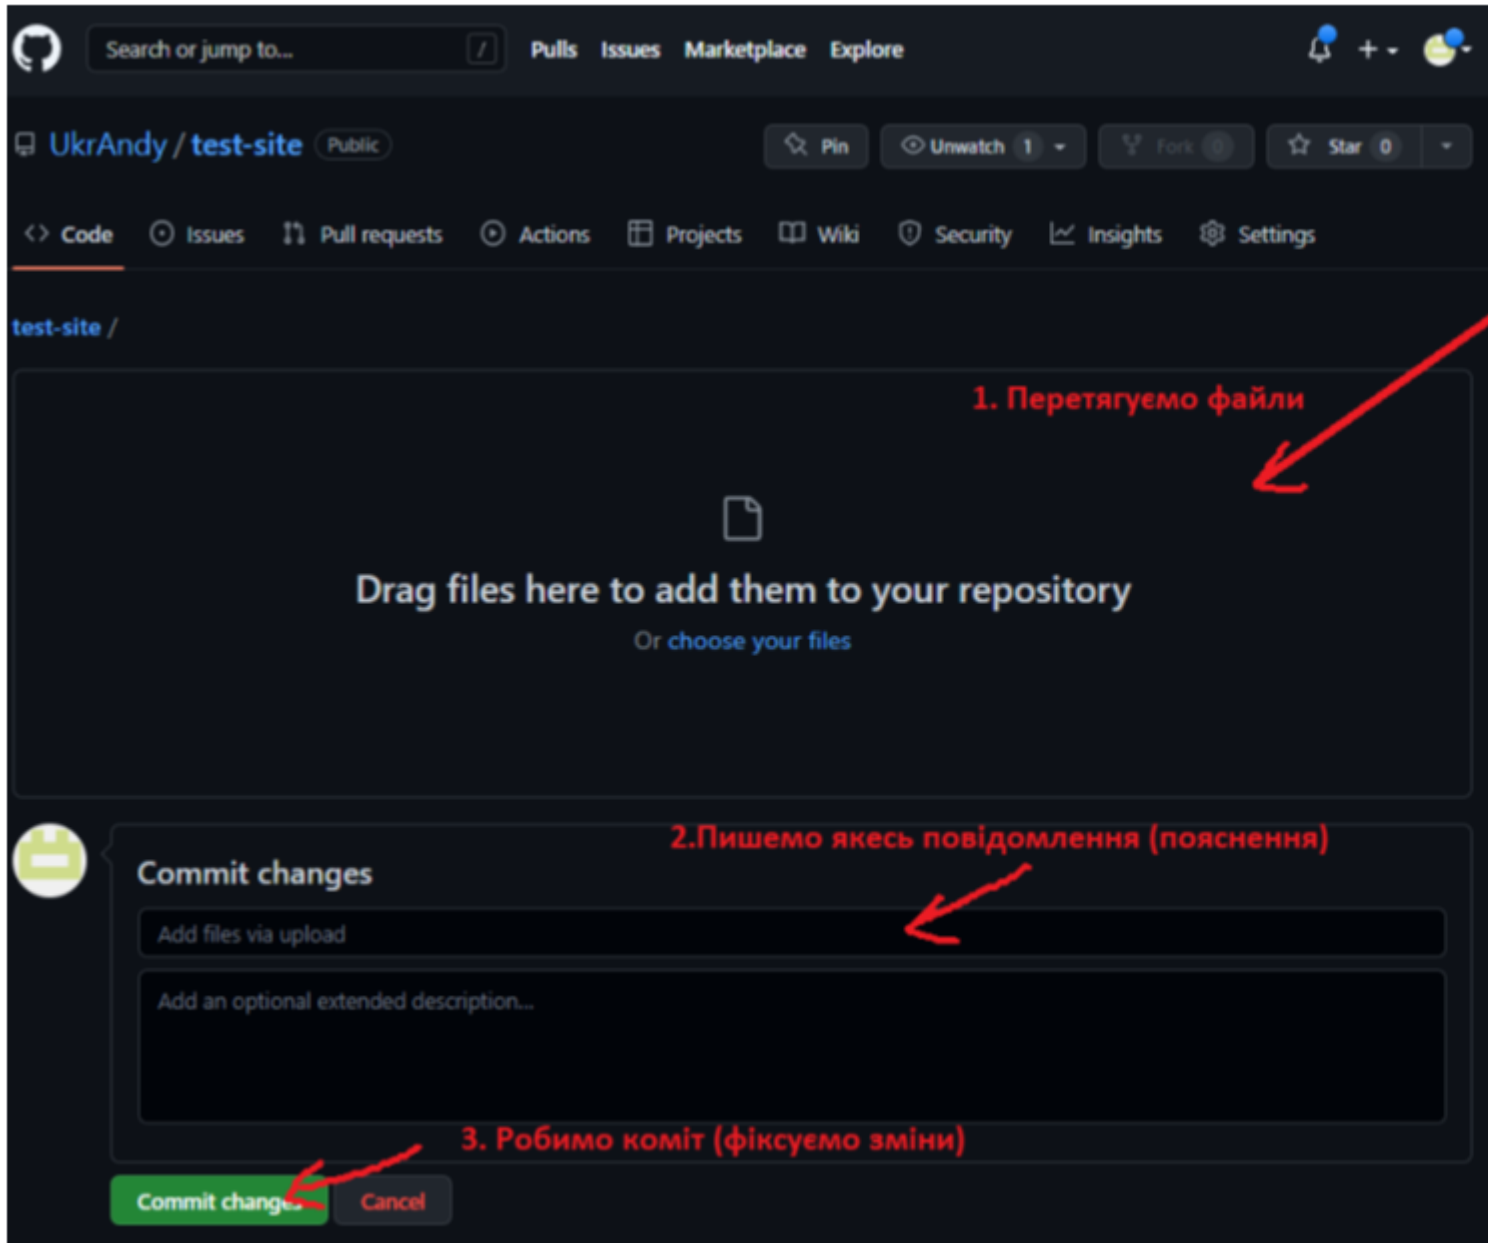

...or import code from another repository

You can initialize this repository with code from a Subversion, Mercurial, or TFS project.

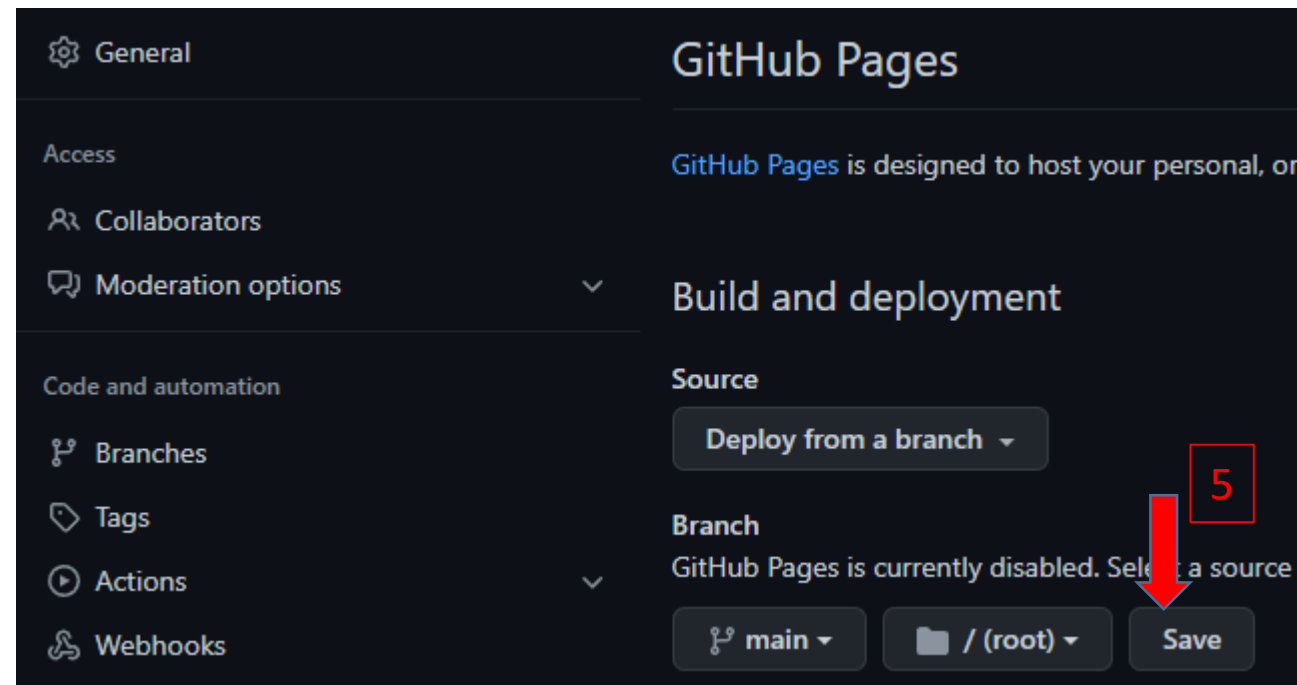

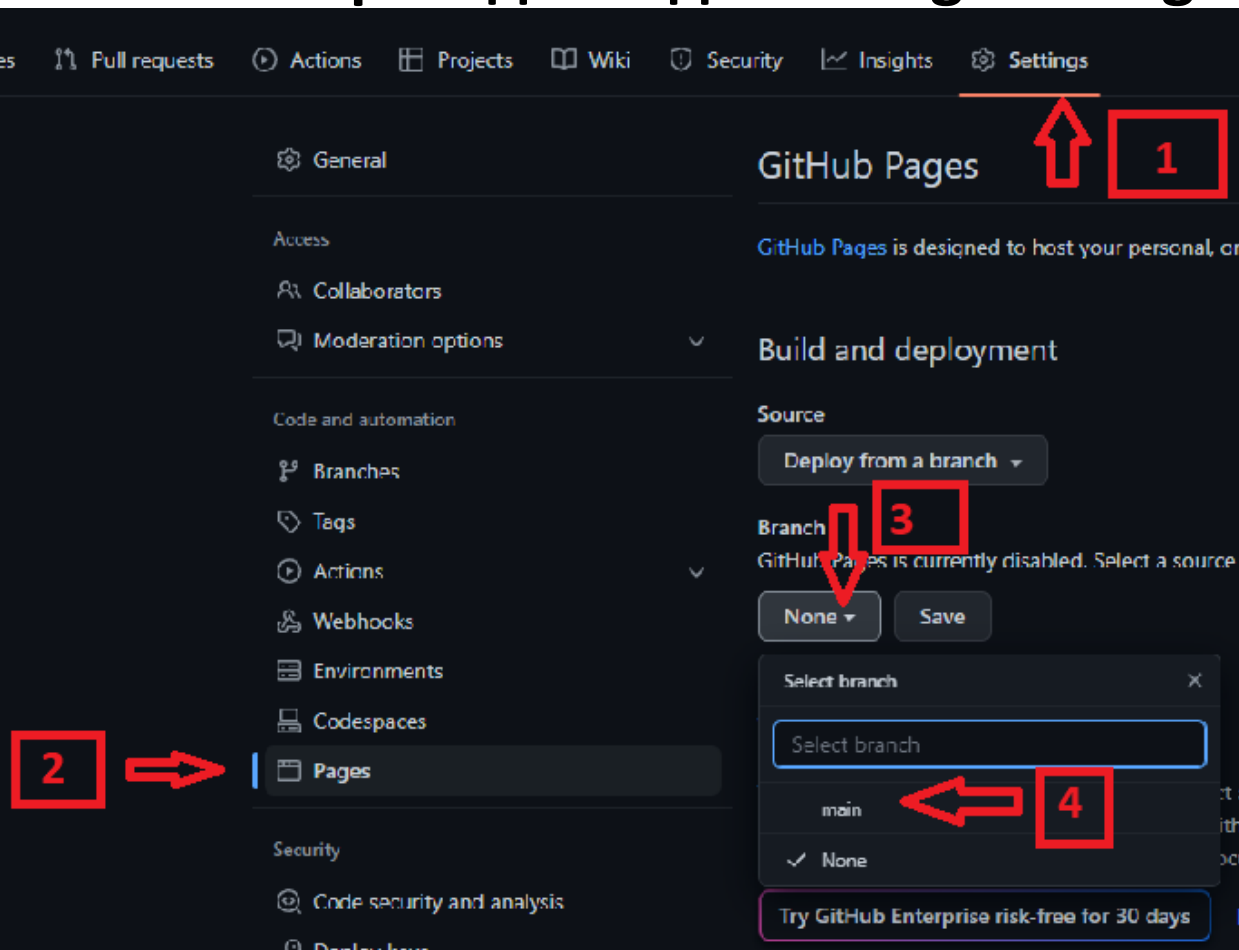

Import code

Розміщення закінчено. Маємо посилання на сторінку

The screenshot shows the GitHub Pages settings interface. At the top, a navigation bar includes links for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. On the left sidebar, the 'Pages' option is selected under the 'General' section. The main content area is titled 'GitHub Pages' and contains the following information:

- A red box with the text "Посилання на розміщений сайт" (Link to the hosted site) is positioned above a red arrow pointing to the published URL.
- A message states: "Your site is ready to be published at <https://ukrandy.github.io/test-site/>".
- The 'Source' section indicates the site is built from the 'main' branch at the root path, with a 'Save' button.
- The 'Theme Chooser' section has a 'Choose a theme' button.
- The 'Custom domain' section is partially visible at the bottom.
